**Subject:** Microsoft Settlement

As a US citizen and stockholder of Microsoft I would like to express my support for the comprehensive agreement reached by the federal government and nine states with Microsoft, which addresses the reduced liability found in the Court of Appeals ruling. Although tough, this settlement seems reasonable and fair to all parties involved.

As both a consumer and stockholder I feel the agree that the proposed settlement is good for consumers, the industry and the American economy.

Thank you for your consideration of my opinion and concern of this matter.
